Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I write today to provide my input on the proposed joint venture of Comcast and NBC Universal. I believe that the combination of an iconic company like NBC Universal with a business that has become one of America's leading innovators—Comcast—can only benefit our broader economy and create new jobs for Floridians and Americans.

Comcast is a true American success story and an example of entrepreneurship and smart management. Its efforts have created jobs here in Florida, employing Floridians directly and contracting with Florida small businesses, as well as providing others with the broadband tools to grow and compete globally.

We need the creative drive of companies like Comcast to be unleashed if we're to get our economy moving again. Swiftly approving the Comcast-NBC Universal joint venture is the right move for the industry and for America.

Sincerely,

Clay Ford
